

L-TYPE

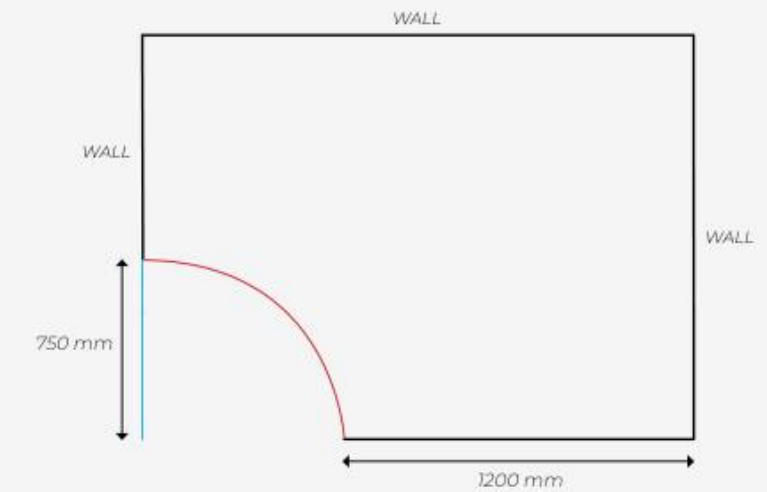

WRAPPED IN FORM

For spaces that unfold across corners, the L-Type format creates a visual balance between openness and enclosure.

Designed for 90° corner installations

Clean division, uninterrupted flow

Ideal for medium-to-large bathrooms

C-TYPE

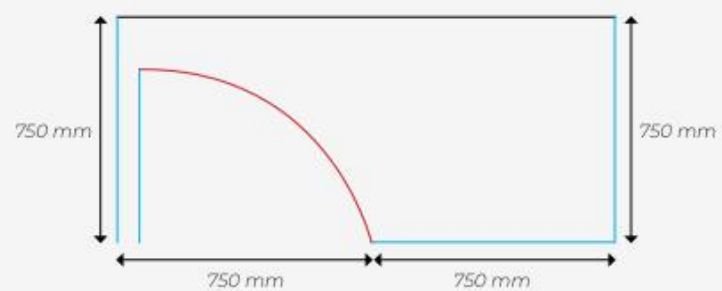

A ROOM WITHIN A ROOM

The C-Type brings architectural structure to expansive layouts.

Encloses three sides with refined symmetry

Creates a spatial island for bathing

Engineered for visual and functional harmony

OPENABLE (SWING)

MOVEMENT, REIMAGINED

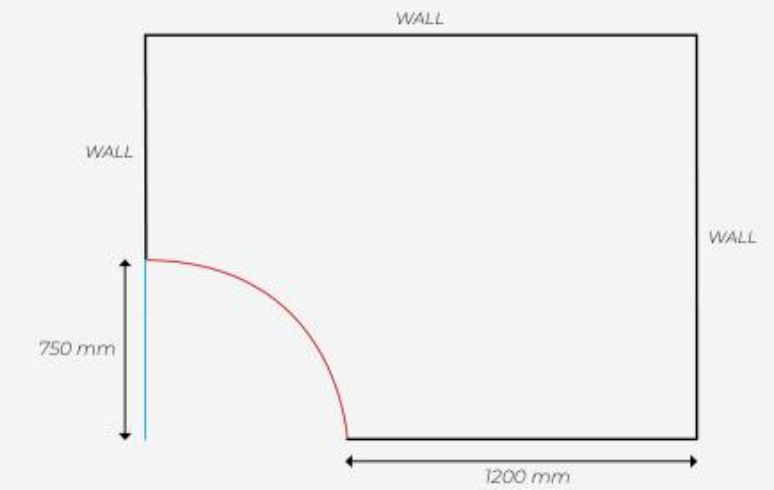

Engineered for smooth precision, Paloma's swing door systems are built for effortless daily rituals.

Soft-close hinge options

Magnetic sealing for steam-tight closure

Designed to open wide, while staying quiet

FIXED

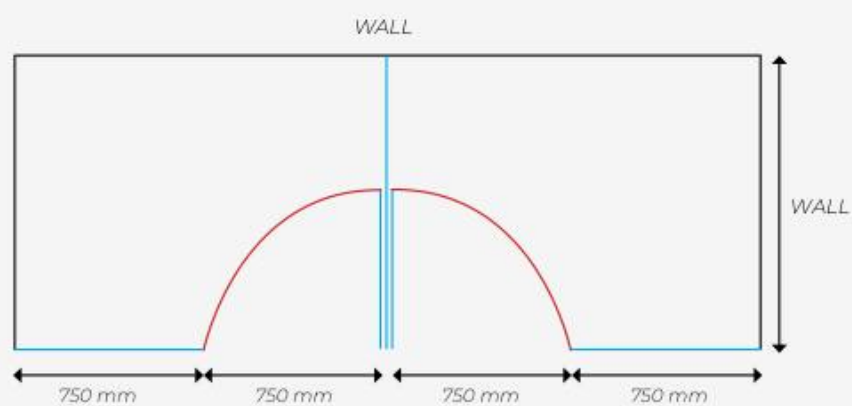

STILLNESS, FRAMED

Ideal for wet-dry zoning or vanity separation

Available in framed and frameless versions

Enhances spatial rhythm with uninterrupted verticality

Often used alongside openable systems for balanced compositions

180° INLINE

LINEAR, INTENTIONAL, UNBROKEN

The purest expression of enclosure — sleek, streamlined, and silent.

Minimalist single-line installation

Perfect for wall-to-wall or alcove spaces

Available in both framed and frameless compositions

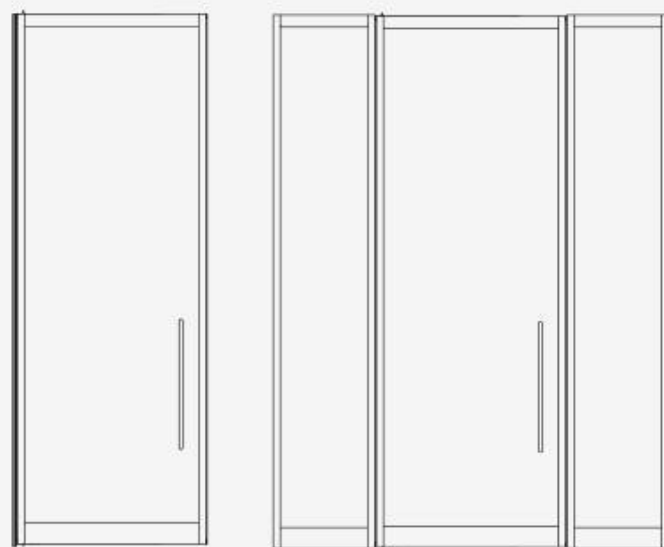

ZEN

IN DETAIL

Concept + Configuration

Every space begins with an idea—a concept shaped by intent and elevated by design. Our configurations bring that idea to life with precision, offering versatile forms that adapt to your vision while staying rooted in timeless aesthetics.

Double Door + 2 Fix

UTILIZING WORLD'S LEADING PIVOT SYSTEM

At the heart of ZEN lies a pivot system trusted by the world's finest architectural projects—engineered for precision, tested for endurance. It ensures smooth, controlled motion across large spans, offering quiet confidence with every open and close. Seamlessly integrated, it elevates functionality without ever drawing attention to itself.

// TOP & SIDE PROFILE ASSEMBLY

THE ANATOMY

OF ZEN

Every line, every joint, every hidden layer is crafted with intention. Behind its minimalist form lies a structure of quiet resilience—engineered to support, designed to vanish. From 5mm profile edges to internal metal bones, ZEN is built to hold glass up to 350kg with clarity and control.

BESPOKE

TAILORED EXCELLENCE

BESPOKE INTEGRATION

Design your storage space with precision using TYDIS's bespoke configurations, tailored specifically to the dimensions of your countertop and basin placements. Our mix of customizable doors and fixed elements offers unmatched flexibility, allowing you to craft the perfect setup for your needs. Incorporate mirrors thoughtfully to enhance light and space, achieving both form and function in your sanctuary.

PERFECTLY RECESSED CABINETS

The elegance of a recessed cabinet stems from its ample storage capacity paired with a minimalist design, creating an organized and spacious feel. With the unit seamlessly set into the wall, only an 18mm door profile remains visible, enhancing the sleek, uncluttered aesthetic.
